

Toffeln[®]

Loving your feet

DENKA

FOOTWEAR

At Toffeln we've dedicated our lives to enhancing foot wellbeing, helping healthcare professionals to have healthier, supremely well supported feet.

We know how harshly poorly designed, ill-fitting and inappropriate footwear can impact tender toes and hard-pressed arches. That's why we work with the leading biomechanics researchers to design and develop the most advanced range of fully compliant footwear.

We combine the functional and the fashionable to create ergonomically designed, super lightweight, beautifully fitting footwear, to provide ultimate comfort for hour after hour of standing, lifting and walking.

And driven by our mission to make every minute of those long working shifts seem shorter, at Toffeln we're passionate about...

Loving your feet

THE SCIENCE OF COMFORT & WELLBEING

The Difference with Toffeln

There are many brands of footwear promoting comfort. The difference with Toffeln footwear is that it is designed specially for the healthcare industry, for doctors and nurses..... people like you.

Better by Design

All shoes are not equal, sports footwear is designed for intensive, limited duration activities, the popular high street brands are not designed for healthcare environments or the length of shift for which they are worn; soft, is not always good for hard working feet that need support. That is why Toffeln footwear has gone through extensive testing in healthcare environments in order to create a unique product that really provides the support and all day comfort the healthcare professionals deserve. They are also marked with recognised standards and approvals as proof that they are fit for purpose which you will not find on most other brands.

Toffeln Biomechanics Working for You

We have over 40 years of expertise in healthcare footwear. Toffeln work closely with industry experts and scientists in foot health and have commissioned the first in depth studies on the impact of operating theatre work on feet and the musculoskeletal system.

Working alongside experts at the University of Salford we have carried out biomechanical studies to understand the effects of long hours of standing and walking in Operating, Hospitals, and related Healthcare environments.

Toffeln Footwear Manufactured with Love

Every pair of Toffeln shoes is manufactured with painstaking care to ensure they give you lasting comfort and reliability.

To ensure you enjoy the best service we carry stock of more than 70,000 pairs for fast despatch to you.

PLANTAR FASCIITIS

If you've ever experienced a persistent stabbing pain on your heel – especially when you get out of bed in the morning – then you know all about plantar fasciitis.

This common orthopaedic complaint can cause nagging discomfort that makes walking almost unbearable. While many runners battle this condition while exercising, for many that are on their feet all day at work, this can turn your job into a nightmare.

“I suffer from plantar fasciitis on my 9 hour+ shifts. With Toffeln SmartSoles, I have comfort throughout my shift and am pain free when I get home.”

- Catherine, Nurse

What causes plantar fasciitis?

Plantar fasciitis is caused by straining the part of your foot that connects your heel bone to your toes (plantar fascia). It is not always clear why this happens. You may be more likely to get plantar fasciitis if: you are 40 to 60 years of age, do a lot of walking running or standing, wear shoes with poor cushioning or support or are overweight.

Ways of easing Plantar fasciitis:

- Wearing wide, comfortable shoes with a low and soft heel
- Using insoles in your shoes
- Comfortable arch support
- Resting your foot raised when you can
- Avoid putting pressure on your feet if you're able to (e.g. try swimming rather than running)

What is plantar fasciitis?

Plantar fasciitis is a common cause of heel pain, which involves inflammation to the thick band of tissue which runs across the bottom of your foot. This band of tissue is used to connect your heel bone to your toes, is also known as the plantar fascia. Plantar fasciitis can often cause a sharp pain that normally occurs as soon as you wake up.

The pain commonly decreases through the day, but can return after walking, standing or running for a long period of time. Despite its insidious nature, it's one of the most prevalent orthopaedic ailments, with an estimated 1 in 10 people suffering from it in their lifetime.

What are the best shoes for plantar fasciitis?

The Toffeln **SmartSole** Range receives praise from sufferers of this condition with its cupped insole, contoured footbed and customisable arch support that stops your feet from flattening out and limits pronation. It offers extra support around the mid-foot to prevent impact on the heel and evenly distributes your weight across the whole foot to help ease the pain for those with plantar fasciitis.

Do you have staff who suffer from plantar fasciitis, foot pain, or tired and aching feet? We suggest you try the **SmartSole** range or one of the Toffeln insoles. Thousands of happy healthcare workers have proved this for themselves.

Toffeln **SmartSole Trainer**

OUR SMARTSOLE COLLECTION

A PERFECT FIT WITH OUR FREE INSOLES

Because everyone's feet are different, we include 3 types of insoles free with each pair of SmartSole shoes.

The ultimate foot pain relief

Our feet are unique - the way they look, the way they feel, even the way we walk. So, when it comes to our shoes we don't take a 'one size fits all' approach. Two years in the making, it's time to discover the Toffeln SmartSole range.

Our advanced range of SmartSoles and customizable insoles will make your working day far more comfortable, no matter the shape or size of your feet.

TARGET FOOT PAIN FAST WITH SMARTSOLE

"I have sensitive feet and started having pain due to plantar fasciitis ...very difficult to find comfortable shoes. I bought other clogs from other brands and had to send them back, but these are lovely! I bought 3 pairs, different colours, as I work in different places, and have no regrets. Best thing I ever did, don't feel pain any more as they have elevated heels. And the fact that you can choose the insole you want to use is a plus."

Christina

TOFFELN[®] SmartSole Breeze

A new generation of breathable, washable footwear, **SmartSole Breeze** provides slipper-like comfort with gentle support to reduce fatigue. All day cool comfort, to make your working day a Breeze.

The **SmartSole** Slip-On range comes with **THREE** pairs of insoles for your perfect fit.

Features

- 1 Guaranteed Certified**

Toffeln Breeze are certified to EN20347:2012, OB, E, SRC. This is the reason that it makes sense to wear Toffeln rather than conventional high street brands or sports shoes as they are tested and approved safe and comfortable for use at work.
- 2 GripSafe Extreme SRC rated sole**

The GripSafe Extreme sole is independently tested and approved to the high standards of SRC slip resistance.
- 3 StretchMesh Breathable Uppers**

The comfy stretch uppers mould comfortably to the feet, allowing room for natural swelling that takes place during the day and accommodating painful or swollen joints. The uppers are highly breathable, keeping feet cool and comfortable, the mesh is tested to EN ISO 20244:2011.
- 4 Washable**

SmartSole can be washed to 40°C (allow to dry in a well-ventilated area do not dry with direct heat). Remove insole prior to washing.
- 5 Lightweight**

Have you ever considered how many miles a day you walk? The average healthcare worker takes over 10,000 steps a day. Wearing lighter footwear in a healthcare setting can reduce fatigue substantially.
- 6 Raised Heel**

As a result of our research the raised heel is at the perfect pitch to distribute pressure more evenly within the shoe for improved comfort and less fatigue.

TAKING COMFORT TO A NEW LEVEL

We took the legendary EziKlog and made it even better. The new, soft feel E-Tech material combines with an enhanced footbed to deliver even greater shift-long comfort. Whilst the GripSafe Extreme pattern offers improved slip resistance, making the EziKlog V2.0, the safest, most stylish clog we've ever made.

GripSafe Extreme SRC rated sole for high slip resistance to reduce slip accidents at work, it is also puncture resistant to reduce risk of sharps injury.

EziProtekta[™] Toffeln[®]

Protecting the protectors

With a strong and light-as-air safety toe cap, **EziProtekta** keeps your pinkies protected if you drop something on your foot. They're also super-light and have a Grip-Safe[®] slip-resistant sole to help prevent falls.

12 Month
Guarantee

Features

- 1 Closed-In Heel**
Specially designed to hold the heel securely.
- 2 EziProtekta Insole**
A complimentary insole is provided with every **EziProtekta** but its use is optional.
- 3 Adjustable Heel Strap**
Heel strap can be worn in forward or back positions.
- 4 Composite Toe Cap To EN20345:2011 SB SRC**
Tested to 200 joule impact and approved to EN20345:2011 SB SRC, this toe cap offers protection against a high level of impact and compression.
- 5 Grip-Safe[®] Sole**
This unique sole not only gives excellent slip resistance, but also offers a much greater penetration resistance than other lightweight footwear available.
